

Eliseo C. DiPrinzio AIA, PP is the Senior Partner of Anchor Point Architecture, where he oversees Land Planning, Architectural and Project Management Divisions of the firm. He also leads business development efforts in Philadelphia, Princeton, and Audubon, NJ offices. Lee is a licensed Architect in New Jersey, Pennsylvania and New York. He is also a NJ Land Planner and licensed Real Estate Agent. Mr. DiPrinzio has served as a professional expert witness in over 50 communities.

Mr. DiPrinzio started a Project Feasibility firm in May of 1988. The company grew into multiple business partnerships, including Dynamic Visions International, which was sold to a government subcontractor in 1996. Thereafter, Anchor Point Architecture was formed and has completed over 850 projects. These include Colgate-Palmolive's North American fragrance industrial building as well as ExxonMobil's corporate offices and training center. Nationally, Mr. DiPrinzio was part of designing computer facilities for NALCOMIS, the Naval land-based logistic centers. Another satisfying part of his architectural career was helping owners of the South Jersey landmark "King of Pizza" restaurant following a devastating fire. Locally, Lee has designed custom beach homes in Avalon and Stone Harbor, NJ.

Lee coached Little League baseball for 20 years, and he volunteers professional time on community-based projects, such as designing a barrier-free park in Salem County, NJ. In his hometown, Lee's firm donated design services for a 9/11 memorial with a piece of steel obtained from the World Trade Center site.

Mr. DiPrinzio graduated from the New York Institute of Technology with a BS in Architecture. He has been a member of the American Institute of Architects, American Planning Association and the Southern New Jersey Development Council. Lee and his wife have three grown sons.
